PROFESSIONAL EXPERIENCE

CREDIT SUISSE: Project Manager (Strategy Analyst) New York City, NY

JUL 2013 — PRESENT

- Managed an end-to-end lifecycle internal social media project to improve engagement within the department by implementing a prioritized multi-pronged strategy
- Spearheaded the site from pre-launch to delivery, including training of staff and management as well as assembly of a global council to promote future sustainability of it
- Created web analytics based metrics to evaluate success (i.e. increased total monthly unique visitors to the Tech Lounge by 160% from Feb to Mar 2014)
- Identified inefficiencies within the department, liaised between global functional teams, and helped conduct risk assessments across all IT to align and improve processes
- Led a 5 person Technical Analyst committee, including managing meetings and organizing events for the analyst program
- Managed two interns during the period of their time with the firm
- Improved the data quality of the ticket resolution process through statistical analysis of the Listed Derivatives code base involving five different systems, on a monthly basis

HEWLETT-PACKARD: Business Analyst Singapore

DEC 2008 — MAY 2009

- Managed an entire module of the new Internet Banking website for a major bank as a liaison for the client including running meetings to better understand their needs
- Wrote and developed documents and flowcharts for user manuals, functional and business requirement specifications that the developers used as a basis for code

INTERNSHIPS

CREDIT SUISSE: Project Management New York City, NY

MAY 2012 — AUG 2012

- Updated and managed in-house reporting with weekly report presentations
- Created user manuals and documentation for an internal dashboard

STANDARD CHARTERED BANK: Product Management Singapore

JUN 2011 - AUG 2011

- Collaborated across departments to derive and execute action plans to meet deadlines
- Constructed an MIS portal to allow senior management track health statuses of projects
- Managed the entire lifecycle of the portal including creating wireframes, documenting ideas and performing quality assurance by implementing agile development processes

ORACLE: Development Singapore

MAY 2010- AUG 2010

- Developed JUnit test cases of web services for content integration of middleware software

NON-PROFIT WORK

DEVELOPMENT SOLUTIONS ORGANIZATION: Engagement Lead Washington, DC

OCT 2011 — PRESENT

- Designed and implemented a sales process for DSO to obtain and better track new and existing clients
- Negotiated scope of projects to align client-consultant relationships during delivery
- Integrated a video transcription web application using SCRUM for a work distribution system that allowed Samasource to provide jobs to low-skilled educated people in developing countries
